HOW TO READ THIS

Every session is mapped to at least one AB 2927 strand and the relevant CA framework standard. Cross-curricular standards (ELA, Math) are noted where a session does double duty. The right column names the evidence — the active task or assessment that demonstrates the standard, not just exposure.

AB 2927 note: California's personal finance graduation requirement takes effect for the 2027–28 school year. Unit 1 establishes the 'foundations of money and financial systems' strand that the remaining units build on.
